

Dear Hatch families,

We understand this year has been difficult on many levels for our Hatch families. With this in mind, the PTO is excited to announce that for our first session of Hatch After Hours, Hatch PTO is funding all Hatch After Hours registration fees for our families needing scholarships. If you would like to enroll in a HAH class using a scholarship, please follow the steps below. First, if you do not have one already, please create an account on the Hatch Elementary Homeroom site. <https://www.homeroom.com/sites/hatch-elementary-oak-park> This is also where our class catalog is, so you can see what our class offerings are for this session. If you already have a Homeroom account, please update your child's teacher and grade information to the current school year. This step will allow you to register in the appropriate grade level classes.

Then, you will fill out a scholarship request form using this [Google Form](#). Each form will ask for child's name, grade, 1st, 2nd and 3rd class choices, parent's contact information, and has space for additional comments – such as you need all children enrolled on the same day etc. It is important to complete one form per child, and that you have more than one choice selected. We will do our best to accommodate your first choice, however scholarships are distributed on a first come basis and we typically have one scholarship available per class. So, register and apply early for best selection! Registration and Scholarship Applications open October 2nd and close October 9th.

After the form is submitted, our HAH Scholarship Team will email you a registration link from Homeroom, where you can enroll in the class at no cost.

If you have any questions, our team is here to help! Just email us at HatchScholarships@gmail.com
